

SECURE YOUR COMPANIES FUTURE
MOBOTIX: The HiRes Video Company

Cordially invite you to attend:

An introduction to the MOBOTIX Intelligent IP Video Surveillance Solution.

Who should attend?

We all know the security market is changing, the defining lines between the security and IT departments are no longer as clear as they used to be. Reactive analog CCTV is being replaced by proactive intelligent high resolution digital IP surveillance systems that can be integrated into all aspects of building management, remote monitoring and access control.

This is the perfect time to be introduced to the MOBOTIX Intelligent HiRes IP Video Surveillance Solution.

This event is aimed at:

Companies coming from a security background and who need a bit more insight into the IT/networking aspects

Companies coming from an IT background into a more security orientated surveillance market as well as

System integrators, installers, web designers etc.

Anyone looking for a competitively priced, high performance weatherproof camera system.

System designers looking for products to base their systems around

Consultants and architects looking for robust intelligent cameras and systems to spec into the ever more IP orientated Building management and surveillance systems.

Security and IT directors from Education, Health Care, Hospitality and Entertainment, Local Government, Police and rescue services, retail, industry, manufacturing.

Journalists, members of the press and media who are looking for the latest trends to report to their readers.

What will MOBOTIX present?

The MOBOTIX decentralized Concept – the features and benefits of an Intelligent Decentralized Surveillance System Solution.

Demonstration of the new 360° Q22 Hemispheric camera.

New hardware and software features of the MOBOTIX product range.

Integrated full audio functionality including VOIP.

Integrated recording software and on board internal storage capabilities

Weatherproof and vandal proof range of camera systems.

All in One system, MOBOTIX Cameras and Software

MxCC management software – why is it different? – It's included in the price of the camera.

Why should you attend?

IT IS THE SOLUTION THAT EVERYONE WITH AN INTEREST IN SURVEILLANCE SHOULD KNOW ABOUT

You will have the opportunity to discuss:

Business opportunities

Application examples

Where does MOBOTIX fit in?

Partner program and training seminar schedule.

I can promise you a couple of hours of new and interesting information that I am convinced will help your business succeed in the IP video surveillance market of the future. I look forward to discussing these opportunities with you in person at a road show location in your area.

Wishing you every success.

Peter McKee

Global Marketing Director

HiRes Video Innovations

The German company MOBOTIX AG is known as the leading pioneer in network camera technology and its decentralized concept has made high-resolution video systems cost efficient.
